

ENSA

PROJECT MANAGEMENT & CONSTRUCTION

About Us

Ensa was founded in 2004 by two close school friends who are graduated from METU. In early business life, they had been worked minor refurbishment works in Ankara & Samsun.

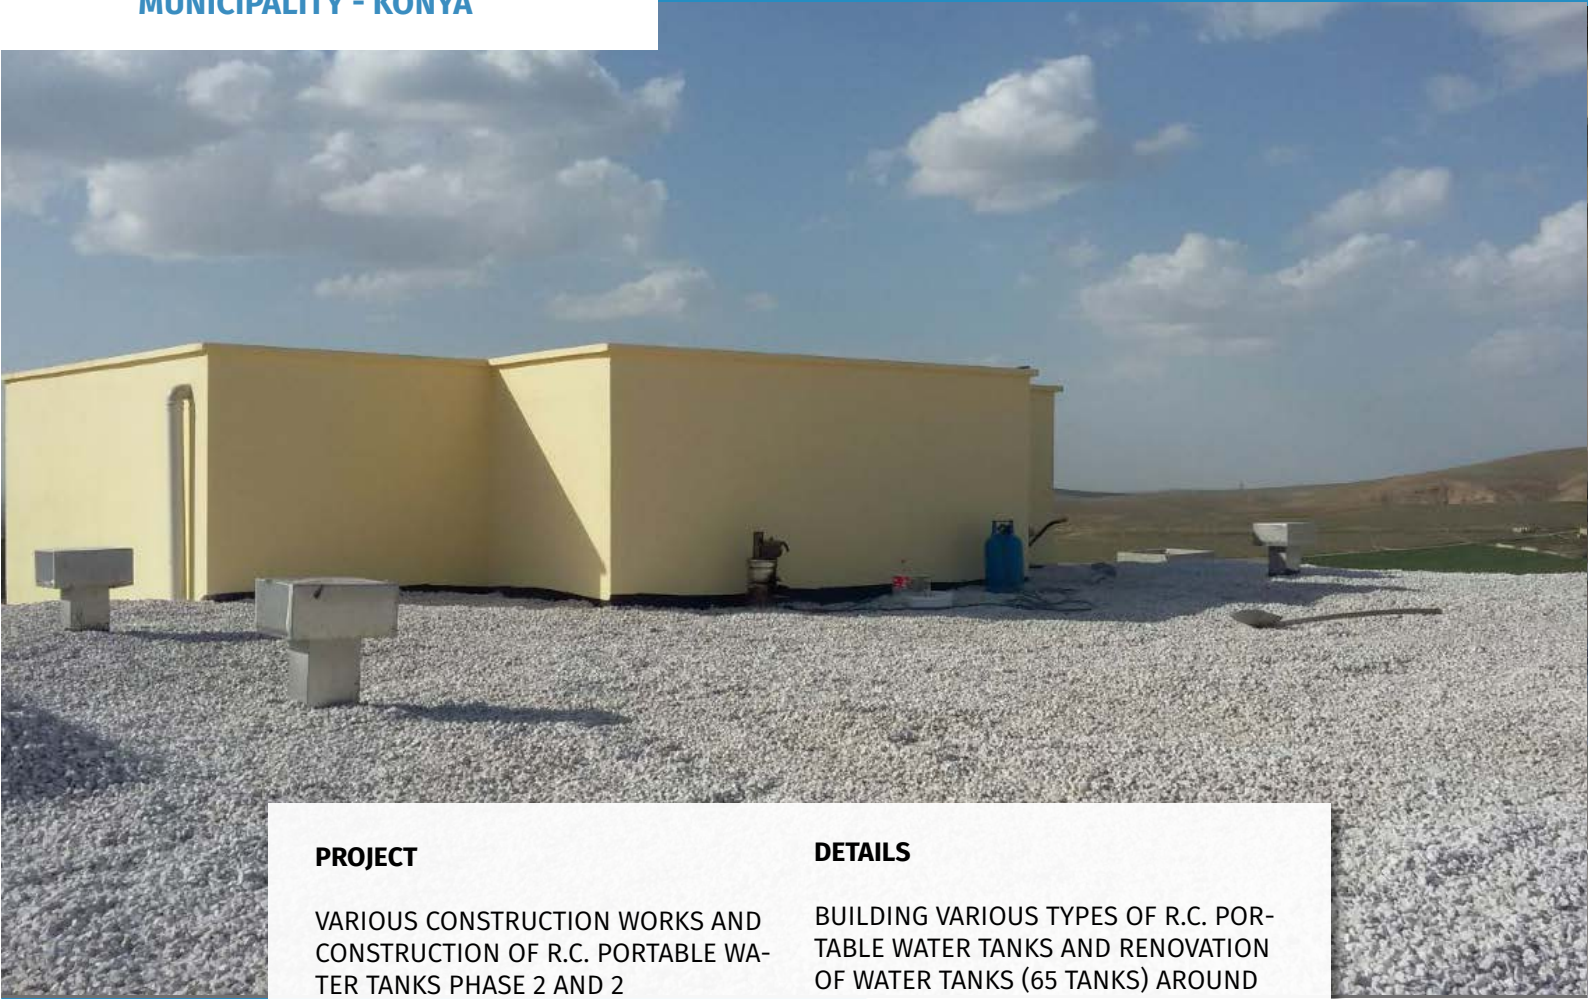

Between 2005-2007, Ensa was committed medium and large scale business in Turkey. In 2007 Ensa undertook many kind of projects commitments especially in the Middle East, and we finished all of them successfully.

Ensa Project Management and Construction Co. is currently managing all projects with using latest technological features and the professional core team which consist of experienced engineers in a way that respect of social values.

After today, we believe that we will continue to pursue our achievements bu adhering to our principles.

With our respect.
